

To Whom It May Concern

### Deforestation Statement

***This statement applies to our entire range of glue/glycerine gasket paper materials branded Flexoid®, Sizoid®, Oakenstrong®, Firefly® and all other brand names.***

Jointine Products (Lincoln) Ltd recognise our responsibility to procure raw materials in a manner which is as environmentally sound as possible. We will only source from locations where there is negligible risks of deforestation.

As our gasket materials are predominantly paper based, we are committed to procuring our paper and paperboard from reliable sources affiliated with the Programme for Endorsement of Forest Certification (a global alliance of national forest certification schemes – PEFC). This ensures that our paper is made using wood pulp sourced according to the Forest Stewardship Council (FSC) certified sources.

We recognise and comply with Regulation (EU) 2023/1115 on deforestation-free products.

Mrs Jane Smith  
Managing Director
